Gradworks Intern Development Program

The Gradworks Intern Development Program is designed to provide recent post-secondary graduates with challenging and career-focused positions within our network of Saskatchewan employers. These full-time internship positions of 12 months in length are intended to allow recent post-secondary graduates the opportunity to gain experience and to develop specific career-related skills. To be eligible for a Gradworks internship you must be a recent college, technical institute or university graduate, have little or no relevant work experience in your field of study and be eligible to work in Canada.

Internship Information – Junior Technical Architect

To be part of a team that architects, designs and develops applications that simplify and enable the customer experience on broadband and wireless networks. We work with the private sector to for the application development.

Responsibilities:

- Assist in the architecture, design and development of selected applications that we are currently pursuing for broadband or wireless networks or where technologies meet
