Gradworks Intern Development Program

The Gradworks Intern Development Program is designed to provide recent post-secondary graduates with challenging and career-focused positions within our network of Saskatchewan employers. These full-time internship positions of 12 months in length are intended to allow recent post-secondary graduates the opportunity to gain experience and to develop specific career-related skills. To be eligible for a Gradworks internship you must be a recent college, technical institute or university graduate, have little or no relevant work experience in your field of study and be eligible to work in Canada.

Internship Information – Analyst Operations Planning & Maintenance

Review annual fuel gas consumption trends for line heaters, identify opportunities to reduce gas consumption and make recommendations for upgrades/replacements under capital spending programs. Developing processes and software tools to integrate existing and future data into SaskEnergy's OneWorld database application. Assist in development of process to evaluate cost vs benefits of provincial programs managed by Operations Planning & Maintenance, including; line heater replacements, regulator overhauls, service tee upgrades, etc. Assist in the Distribution System failure incident statistical analysis and benchmarking process (threats, consequences, frequency). Develop distribution system hazard almanac to document historic threats/hazards to ensure sufficient processes in place to prevent, detect and/or mitigate potential incidents

Responsibilities:

- Prepare and develop plans to optimize systems, facilities and processes.
- Prepare business cases that ensure facilities are optimized and used effectively.
- Responsible for assigned project budgets.
- Responsible for supervision of assigned contract staff.
- Make a positive contribution to the achievement of team results.
- Maintain an awareness of industry developments and assist in finding solutions for the gas industry.
- Apply and assist in the development of standards and specifications.
- Implement and evaluate new technology.
- Make effective provisions for public and employee safety in accordance with legislated requirements.
- Comply with any and all applicable Corporate standards, policies, and practices and legislation and regulatory requirements.

Qualifications:

- University degree in Business Administration, Commerce or Social Sciences
- Demonstrated computer skills including word processing, spreadsheet and presentation applications (Microsoft Office)
- Ability to work independently as well as within a team environment using excellent interpersonal skills to establish and maintain relationships with a diverse group of individuals
- Excellent analytical skills
- Excellent written, group and oral communication skills
- Strong leadership skills

Additional Information:

The Gradworks Program supports the values of workplace diversity and employment equity. Applications are encouraged from people of Aboriginal ancestry, persons with disabilities, members of a visible minority and women.

How To Apply:

Please apply through the Gradworks website at www.gradworks.ca using your online cover letter and resume, including references. **Your application will not be considered unless you have submitted both a cover letter and resume. The completion date of your post secondary education must be stated in your resume in order to be considered for the position. Please include the month of completion if your education was completed in the current year.**
