**Gradworks Intern Development Program**

The Gradworks Intern Development Program is designed to provide recent post-secondary graduates with challenging and career-focused positions within our network of Saskatchewan employers. These full-time internship positions of 12 months in length are intended to allow recent post-secondary graduates the opportunity to gain experience and to develop specific career-related skills. To be eligible for a Gradworks internship you must be a recent college, technical institute or university graduate, have little or no relevant work experience in your field of study and be eligible to work in Canada.

**Responsibilities:**

- Provide technical leadership and execution for the Standard Operating Environment (SOE) through inventorying and updating the SOE database. This includes but is not limited to confirming and investigating each technical product's name, version, product description/information and determining the product's business and technology owner.
- Assist with additional strategic planning projects in the following areas (Data Center Design, Infrastructure Software, Desktop Operating Systems, Database technology, Network, Security, Storage and Server technology).
- Responsible for updating and converting SOE records in the database, and perform an audit of the system on a regular basis.
- Conduct a thorough and accurate inventory of the IT environment and ensure information is accurately reflected in the SOE system.
- Effectively manage architecture planning standards and initiatives, which includes scheduling and reporting. Project reporting will include preparing a project plan & schedule, written and verbal status reports and presentations to management.
- Effectively work on other assigned technology planning initiatives including conducting on-line research & investigation of technologies and preparing written reports and presentations summarizing the results of the investigation.

**Qualifications:**

- Post secondary education in one of the following: Computer Science, Engineering, Physics, Economics, Business Management or a Technology related field.
- Strong planning, analytical, organizational and research skills.
- Good communication skills both verbal and written.
- Ability to work independently.
- Experience in project management is an asset Ability to work independently.
- Previous leadership skills an asset.

**Additional Information:**

The Gradworks Program supports the values of workplace diversity and employment equity. Applications are encouraged from people of Aboriginal ancestry, persons with disabilities, members of a visible minority and women.

**How To Apply:**

Please apply through the Gradworks website at [www.gradworks.ca](http://www.gradworks.ca) using your online cover letter and resume, including references. **Your application will not be considered unless you have submitted both a cover letter and resume. The completion date of your post secondary education must be stated in your resume in order to be considered for the position. Please include the month of completion if your education was completed in the current year.**
